

CHREZO

MODÉLISME FERROVIAIRE

NEWSLETTER N° 38 - 21th April 2024

FOCUS ON... FREIGHT CARS!

Dear customer,

Our partner Lenz has started to deliver the different freight cars models announced in our 2024-2025 catalog and you may have given up on purchasing them, thinking that everything was reserved or sold out...

Here is a quick overview of the still available items on our site www.chrezo.com. These products are reduced at 1/45 scale, run on curve radius greater than or equal to 914 mm (R1 from Lenz) and are delivered with screw couplers to be fitted by the amateur. The metal wheels are blackened and comply with Fine Scale standards (NEM 310).

Please note, some items are only available in a few units and will not be reissued.

In the second part of this Newsletter, you will find an update about our current projects.

Enjoy your reading !

LENZ/SNM 41030 : Coils transporting car SNCF Shis 50.2

A few pieces are still available in our store. These rolling stocks have letterings corresponding to the operating period approximately 1975 – 1980.

Overall Length : 280 mm.

Price : **220.00 €** INCL. VAT + shipping.

LENZ / SNM 41004 : FS wagon Shimmns 708

The Italian version of the French Shis 50.2 SNCF have its telescopic hoods painted in aluminium. It is also available in our webshop at the same price. This model is sold-out on SNM magazin webshop.

LENZ 42245-04 : covered van SNCF K 340 689

Covered van built according to UIC standards, in its genuine livery (1958). Doors and ventilation flaps are really sliding. Overall length 235 mm.

Price : **149.50 € INCL. VAT + shipping.**

LENZ 42323-32 : Tank-car Zacns, rented by TransRail to Elf

New release with MTH tools.

Overall length: 367 mm

Price : **149.00 € INCL. VAT + shipping.**

LENZ 42323-09 : Tank-car Zacns, operated by ERMEWA

Overall length: 367 mm

Price : **149.00 € INCL. VAT + shipping.**

NEXT LENZ EXCLUSIVE EDITIONS : The other items released in partnership with the Giessen firm are announced for :

- Heavy duty flat cars Ssy 45 : july 2024
- Streamlined coaches DR 39 : july 2024
- Reefer cars ex-DRG Tnfs 32 « Marcel Millet » : expected in 2025

X 3800 « PICASSO » RAILCAR

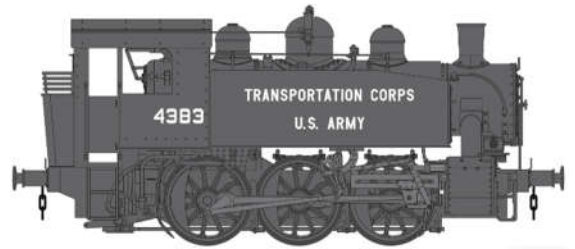

Mass production (800 pieces) is expected to be shipped from China at the end of May. Remember that due to the situation in the Middle East, CMA-CGM ships are now bypassing Africa via the Cape of Good Hope and the journey to Europe has been extended by 2 weeks. We have decided not to pass on the resulting increase in the shipping cost.

Subscribers will receive an email by the end of April inviting them to definitively confirm their choice of version, to pay any remaining subscription and to order - if they wish - their DCC ESU sound decoder.

SNCF 030 TU / USATC Class S100

This joint project with our British partner Minerva Model Railways is progressing normally and the tools machining began in mid-February. An Engineering sample should be available for the 80th anniversary of the D-DAY, and mass production models are expected by the end of 2024.

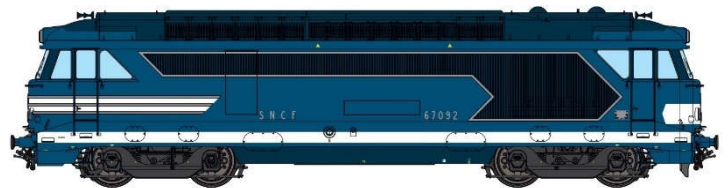

LOCOMOTIVE DIESEL CLASS 66 ECR

Our supplier DAPOL told us expecting the second engineering sample, modified according to the new design team improvements. The model is now expected in 2025.

LOCOMOTIVE DIESEL BB 67000 / 67200 / 67300 SNCF

Fans who have missed Ulule crowdfunding campaign <https://fr.ulule.com/bb-67000-echelle-zero/> can still book a BB 67000 / 67200 / 67300 series diesel locomotive from the 8 available liveries, at the price of **799,00 € INCL. VAT** in DC version.

Payment is not necessary at this step and you can place an order only.

We have finished CAD drawing checking, according to manufactory blue-prints and pictures, in order to shorten design works for our model supplier. Due to the production delays of our current supplier, we are thinking about finding another one, our goal is still to deliver the subscribed products before the end of year 2025.

SNCF OMNIBUS CARS « 3 AXLES » :

This project is still in design step and there is no particular progress from our last Newsletter.

SHOWS :

CHREZO will be exhibitor during the next following events :

- Gauge 0 builders and fans meeting in Nîmes, 4th May 2024
- Rail-Expo on 29th, 30th November & 1st December 2024 in Dreux
- Second edition of Model train exhibition in Bourges, on 15th and 16th March 2025 .

See you soon...

Joël RASSCHAERT
