MODÉLISME FERROVIAIRE

13th NEWSLETTER Sept 10th, 2016

Dear 0 gauge fans,

While we were enjoying the summer heat, our partners didn't take any rest ! LENZ delivered us the UIC covered wagons whereas Michael SCHNELLENKAMP is giving the final touches on the « Armistice » SS15 flat wagon and the K25 gondolas. The UIC covered wagons have met a great success as we only have 20 pieces of each reference left. I wish to thank the many customers who booked them and confirm that shipping out will start this week.

May I remind my customers that production is on a limited edition basis.

Enjoy your read !

LENZ :

Here are the 3 final versions of the UIC Gs4-01 covered wagon .

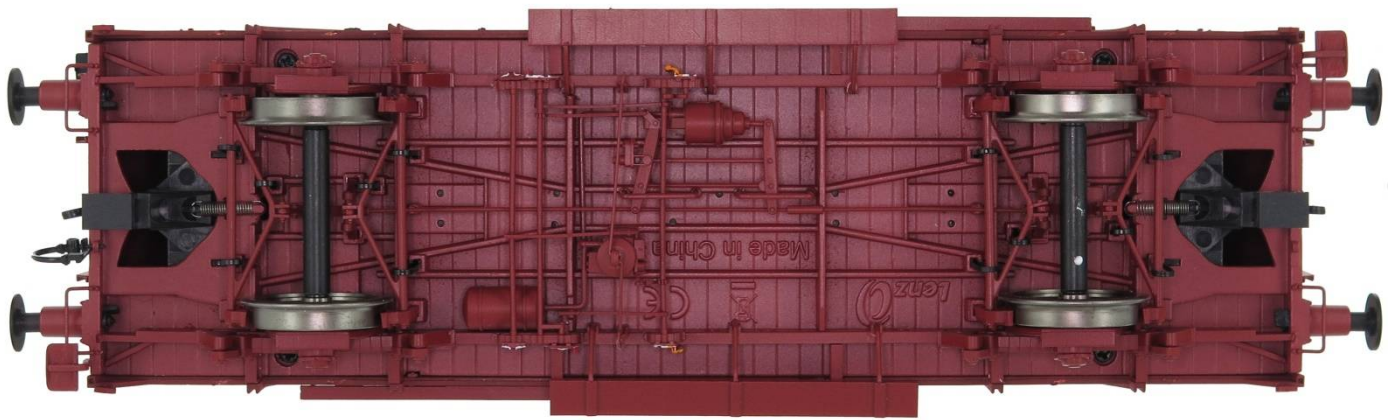

Below is the original version, as appeared in 1957 (Item number : 42245-01), SNCF standard dark brown body over a black underframe :

All models are delivered with a non-functional end-light lantern to be set by the user. Please take note that this german lantern does not match any existing SNCF type.

All wagons now take advantage of a clearly visible U-profiled underframe. Both doors and all flaps are functional and can be set in opened or closed states.

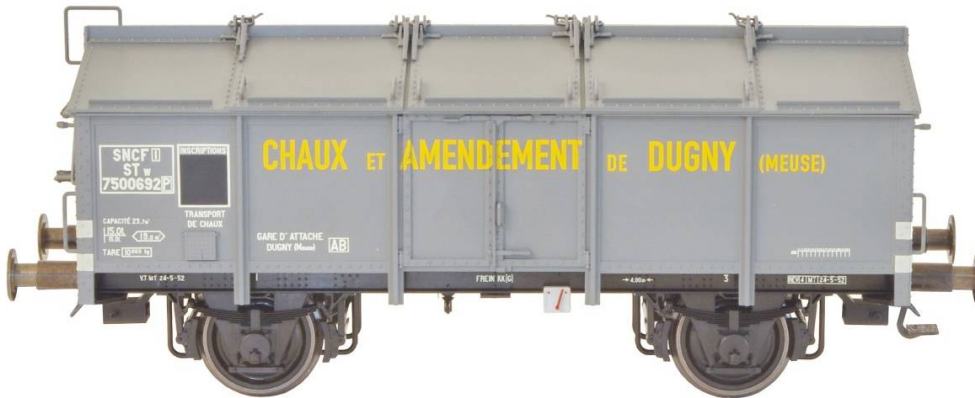

The above 2 pictures describe model number 42245-02, Epoque III 1962-1968 with SNCF UIC red on both body and undercarriage

The Epoque IV version pictured above is reference 42245-03. It covers the period ranging from 1968 to 1990 and comes with same SNCF UIC RED color as previous version, but with UIC standard markings.

SCHNELLENKAMP: Michael Schnellenkamp has announced a delay in the manufacturing of its new products to november. Please find a few pictures of prototypes in a very advanced stage.

A) Privately owned Lime transport wagon « Chaux de Dugny »:

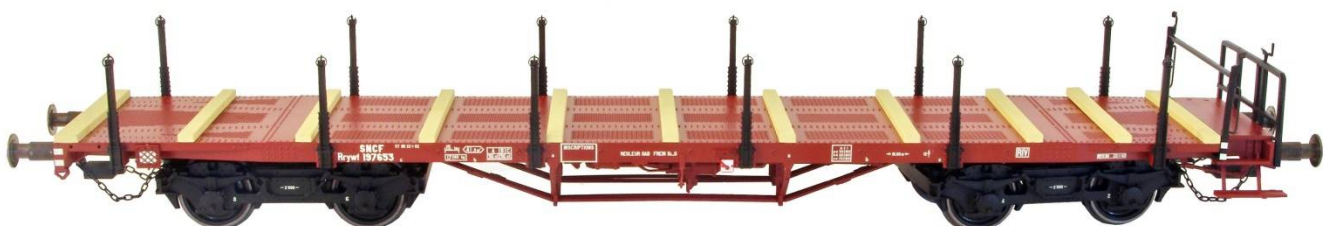

B) Era III SNCF standard dark brown version:

C) UIC Era IV Sand transport wagon (an era III version is also scheduled):

The Flat 4-Axle ex SS15 wagon is also very promising. The below picture shows a prototype still in progress. Specifically, axle rims, bogies, stanchions and platform have to be in SNCF UIC red. Markings will be complemented with axlebox technical visit dates and a black background for the hand marking area.

MIKE'S TRAINS HOUSE : A new European catalog is out, but no French new item is visible:

The SNCF 150 X (2-10-0) (**1599 €**) and the 5 versions of 141P (**1499 €**) are still available (price inclusive of VAT and transport).

We also bought the last 20-60019-2 OCEM SNCF before 1956 passenger car sets (**550€** inclusive of VAT and transport) every car can also be ordered separately : **120 €** each with VAT and transport

The only CIWL passenger car set left is reference 20-60023, including 3 LX cars , one blue and white Pullman with kitchen and a "Flèche d'or" (Golden Arrow) truck (upon order)

Don't hesitate to contact us for any more detail. We generally place monthly order with MTH.
